Preface	viii	
Introduction by Dr Anthony Kenny	xi	
PART ONE		
1	Literature, Philology, and Linguistics	
	1.1 Achievements	1
	1.2 Critical Assessment	13
2	History	
	2.1 Achievements	19
	2.2 Critical Assessment	35
3	Archaeology	
	3.1 Achievements	41
	3.2 Critical Assessment	47
4	Art	
	4.1 Achievements	49
	4.2 Critical Assessment	59
5	Music	
	5.1 Achievements	61
	5.2 Critical Assessment	66
6	Social Sciences and Statistics	
	6.1 Achievements	72
	6.2 Critical Assessment	79

## References

1	Linguistics, Literature, and Philology	
1.1	Main institutions	83
1.2	Associations	86
1.3	International conferences	86
1.4	The ACH-ACL-ALLC Text Encoding Initiative	87
1.5	Bibliography and other sources of information	88
2	History	
2.1	Institutions	95
2.2	Associations	95
2.3	Periodicals	97
2.4	Guide to the basic reference literature	97
2.5	Examples of projects	99
3	Archaeology	100
4	Art	
4.1	Main Institutions	103
4.2	International Associations	103
4.3	International Conferences	103
4.4	Periodicals and Newsletters	103
4.5	A Guide to the basic reference literature	103
5	Music	
5.1	Main Institutions	104
5.2	International Associations	104
5.3	International Conferences	104
5.4	Periodicals and Newsletters	104
5.5	Examples of Data Bases	105
5.6	Examples of Projects	105
6	Social Sciences and Statistics	
6.1	Software	108
6.2	Literature	110
6.3	Periodicals	112
6.4	(Regular) Conferences	114
6.5	Main institutions for data collection	115

## PART TWO

1	The Creation of Machine Readable Data	119
1.1	Collective data-bases	119

## CONTENTS

vii

1.2	Individual data-bases	122
1.3	The chief problems: standardization, communication, and exchange	123
2	Computer Technologies in Humanities Research	126
2.1	The three levels in humanities computing	126
2.2	Humanities and software	129
2.3	Humanities and information sciences	131
3	The Recognition of Computing in the Humanities	132
3.1	The status of work done by computing	132
3.2	The publication and archiving of data	134
3.3	Research training and curricula	135
